## **Encounters in West Africa** Hossein Kamali

Encounters in West Africa is perhaps unique in its kind, informative, critical and at the same time entertaining. It gives an overview of West African history, the Transatlantic Slave Trade and the Amistad Revolt. It refers to major events since the European colonialism; aspects of cultural heritage and traditional beliefs in sorcery and witchcraft, secret societies, initiation and wedding ceremonies and the status of African women.

The author explains how slavery fueled the engine of western economies through draining African wealth and human resources and addresses the critical question "Why Africa endowed with rich resources remains the world's poorest region in the twenty-first century!" In response, while recognizing the internal political conditions and social instability as the major constraints, he blames the West and the United States in particular for ignoring Africa despite giving much attention to some other territories. He then draws attention to the pressing issues facing Africa and the challenging role of the international community and Western media for a change of policy. The author believes that education should be given first priority in any donors' assistance package to Africa which should include health care education and sharing knowledge and technology transfer with effective community involvement.

The author's aim is to enrich the awareness of the reader about the potential resources, rich heritage and traditional values of Africa with the hope to promote international partnership with the continent.

The last parts of the book cover the author's interesting memoirs, some advice to visitors before travelling to the region and references to institutions and NGOs affiliated with West Africa.

#### Crystal Thomas:

Reading a book to get new life style in this 12 months; every people loves to examine a book. When you learn a book you can get a large amount of benefit. When you read books, you can improve your knowledge, since book has a lot of information into it. The information that you will get depend on what kinds of book that you have read. If you wish to get information about your study, you can read education books, but if you act like you want to entertain yourself read a fiction books, this kind of us novel, comics, along with soon. The Encounters in West Africa offer you a new experience in reading through a book.

#### Christopher Bohner:

As a university student exactly feel bored to be able to reading. If their teacher inquired them to go to the library as well as to make summary for some book, they are complained. Just small students that has reading's internal or real their pastime. They just do what the trainer want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that reading through is not important, boring as well as can't see colorful photos on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this Encounters in West Africa can make you sense more interested to read.
