*“As military historians go, Hammel stands among the very best. His 30-plus volumes dutifully record great Marine battle epics ... In reading **Marines in Hue City**, Marine veterans of the battles of Fallujah, and other Iraq city fighting, will relate through the photographs included in this coffee-table-sized volume ... Hammel does an outstanding job of combining the account of the battle with a bevy of new, never-before-published photographic images.”*

Leatherneck

*“**Marines in Hue City** tells the story of the four-week Battle of Hue with concise prose and many strongly evocative photographs. Many are official USMC photos; others are never-before-published pictures taken by individual Marines. It all adds up to an excellent account of one of the Vietnam War’s most pivotal battles.”*

The VVA Veteran

Over decades of conflict in Vietnam, Hue, the former imperial capital, had been spared. But everything changed on January 31, 1968, the eve of the lunar new year--a national holiday long marked by a mutual ceasefire--when the North Vietnamese launched a massive offensive. In the cataclysm of violence that convulsed South Vietnam during the now-infamous Tet Offensive, Hue was overrun--and the only forces available to counterattack were a handful of Marine infantry companies based eight miles south of the city.

This photographic history chronicles the savage battle that followed as, for four excruciating weeks, the Marines of Task Force X-Ray fought house to house and street by street to retake the city so central to the Vietnamese culture and psyche. Through photographs taken in the heat of the action, readers will follow one of the wars most important campaigns, as ground gained is measured in painstaking inches and every alley, every street corner, every window might be the last.
