An Introduction to Husserlian Phenomenology: Northwestern University Studies in Phenomenology and Existential Philosophy Rudolf Bernet, Iso Kern, Eduard Marbach

This comprehensive study of Husserl's phenomenology concentrates on Husserl's emphasis on the theory of knowledge. The authors develop a synthetic overview of phenomenology and its relation to logic, mathematics, the natural and human sciences, and philosophy. The result is an example of philology at its best, avoiding technical language and making Husserl's thought accessible to a variety of readers.
