Clear and accessible, this text addresses the fundamental knowledge and skills you need to work in a blood-banking laboratory. It integrates basic theory ? genetics, immunology, and immunohematology ? then adds practical, problem-solving exercises. Clinical scenarios and critical thinking exercises help you apply basic concepts to modern transfusion and blood-bank settings.

- Experienced authors offer a practical "in the trenches" view of life in the laboratory.
- A clinical application focus relates concepts to practice and offers examples of using theoretical information in the laboratory setting.
- Coverage of quality control assurance and regulatory issues includes the "whys" in both reagents and equipment.
- An entire chapter is devoted to basic genetics and immunology coverage.
- Blood group systems are described in easy-to-follow, student-friendly terms.
- Illustrations and tables help you understand critical information.
- A two-color design brightens the text and makes it more reader-friendly.
- Chapter outlines, review questions, learning objectives, and key terms are included in each chapter, highlighting and reinforcing important material.
- Critical Thinking exercises ask you to draw conclusions based on a case study.
- Chapter summaries include a paragraph, table, or box of the essential information.
- NEW information reflects changes in the field, including:
  - Different types of DNA testing and uses
  - Automation impact and issues
  - Latest donor criteria from the AABB and the FDA
  - Hepatitis C and HIV NAT testing
  - West Nile testing
  - Bacterial contamination statistics and prevention
  - Bone marrow transplant blood use
  - Peripheral stem cell collection
  - Cord blood collection and use
- More case studies, examples, and flow charts in the Antibody Detection and Identification chapter help to illustrate principles and practices.
- Margin Notes are added throughout to reinforce key terms and procedures.
- More review questions are added for thorough and efficient self-assessment.
- Expanded Evolve resources include web links, ArchieMD animations, and additional study questions
