Handbook on Gender and War (International Handbooks on Gender series) Simona Sharoni, Julia Welland, Linda Steiner, Jennifer Pedersen

This interdisciplinary Handbook offers a comprehensive and detailed overview of the relationship between gender and war, exploring the conduct of war, its impact, aftermath, and opposition to it. Offering sophisticated theoretical insights and empirical research from the First World War to contemporary conflicts around the world, this Handbook underscores the centrality of gender to critical examinations of war.

A standout characteristic of this volume is its synthesis of both scholarly and policy-relevant debates as well as detailed case studies addressing both war and post-conflict realities. Including feminist perspectives with critical attention to men and masculinities, this Handbook proves itself to be both expansive and meticulous in its scholarly approach and critiques.

The Handbook on Gender and War draws upon research from a wide variety of disciplines and will be of interest to scholars and researchers of gender and sexuality studies, international relations, sociology, peace and conflict studies, and cultural studies. It will also hold great appeal to policymakers and field workers engaged in projects in post-conflict re-construction, human rights, development, and gender justice.
