Judgments of Responsibility: A Foundation for a Theory of Social Conduct Bernard Weiner PhD

Presenting a general theory of social motivation, this compelling work integrates research on achievement evaluation, stigmatization, helping behavior, aggression, and impression management. Bernard Weiner examines how responsibility inferences are reached, the manner in which such judgments affect emotions, and the role that "cold" judgments of responsibility versus "hot" feelings, such as anger, play in producing both pro- and antisocial behaviors. Ideal for students as well as researchers and mental health practitioners, the book includes experiments for the reader to complete that illustrate the main points of the text.
