Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence) Aruna Chakraborty, Amit Konar

Emotional Intelligence is a new discipline of knowledge, dealing with modeling, recognition and control of human emotions. The book Emotional Intelligence: A Cybernetic Approach, to the best of the authors' knowledge is a first compreh- sive text of its kind that provides a clear introduction to the subject in a precise and insightful writing style. It begins with a philosophical introduction to E- tional Intelligence, and gradually explores the mathematical models for emotional dynamics to study the artificial control of emotion using music and videos, and also to determine the interactions between emotion and logic from the points of view of reasoning. The later part of the book covers the chaotic behavior of - existing emotions under certain conditions of emotional dynamics. Finally, the book attempts to cluster emotions using electroencephalogram signals, and d- onstrates the scope of application of emotional intelligence in several engineering systems, such as human-machine interfaces, psychotherapy, user assistance s- tems, and many others. The book includes ten chapters. Chapter 1 provides an introduction to the s- ject from a philosophical and psychological standpoint. It outlines the fundamental causes of emotion arousal, and typical characteristics of the phenomenon of an emotive experience. The relation between emotion and rationality of thoughts is also introduced here. Principles of natural regulation of emotions are discussed in brief, and the biological basis of emotion arousal using an affective neu- scientific model is introduced next.

From reader reviews:

Maria Ives:

Book is usually written, printed, or outlined for everything. You can realize everything you want by a guide. Book has a different type. As it is known to us that book is important matter to bring us around the world. Alongside that you can your reading talent was fluently. A publication Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence) will make you to end up being smarter. You can feel more confidence if you can know about every little thing. But some of you think this open or reading some sort of book make you bored. It is not necessarily make you fun. Why they may be thought like that? Have you trying to find best book or appropriate book with you?

Jonathan Peterson:

What do you with regards to book? It is not important along? Or just adding material when you need something to explain what the ones you have problem? How about your spare time? Or are you busy particular person? If you don't have spare time to complete others business, it is make you feel bored faster. And you have extra time? What did you do? Every individual has many questions above. They need to answer that question mainly because just their can do that will. It said that about guide. Book is familiar in each person. Yes, it is appropriate. Because start from on kindergarten until university need this specific Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence) to read.

Rosemary Perez:

Do you among people who can't read gratifying if the sentence chained in the straightway, hold on guys this specific aren't like that. This Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence) book is readable by means of you who hate those straight word style. You will find the info here are arrange for enjoyable looking at experience without leaving actually decrease the knowledge that want to deliver to you. The writer associated with Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence) content conveys the thought easily to understand by many individuals. The printed and e-book are not different in the content material but it just different by means of it. So , do you even now thinking Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence) is not loveable to be your top listing reading book?

Dennis Green:

On this era which is the greater man or who has ability to do something more are more important than other. Do you want to become certainly one of it? It is just simple method to have that. What you must do is just spending your time almost no but quite enough to have a look at some books. On the list of books in the top listing in your reading list is definitely Emotional Intelligence: A Cybernetic Approach (Studies in Computational Intelligence). This book which can be qualified as The Hungry Hills can get you closer in turning out to be precious person. By looking way up and review this publication you can get many

advantages.
