Presenting the first step-by-step commentary on Husserl's Ideas I, Marcus Brainard's *Belief and Its Neutralization* provides an introduction not only to this central work, but also to the whole of transcendental phenomenology. Brainard offers a clear and lively account of each key element in Ideas I, along with a novel reading of Husserl, one which may well cause scholars to reconsider many long-standing views on his thought, especially on the role of belief, the effect and scope of the epoche, and the significance of the universal neutrality modification."
