Lightweight Composite Structures in Transport: Design, Manufacturing, Analysis and Performance

Lightweight Composite Structures in Transport: Design, Manufacturing, Analysis and Performance provides a detailed review of lightweight composite materials and structures and discusses their use in the transport industry, specifically surface and air transport. The book covers materials selection, the properties and performance of materials, and structures, design solutions, and manufacturing techniques.

A broad range of different material classes is reviewed with emphasis on advanced materials. Chapters in the first two parts of the book consider the lightweight philosophy and current developments in manufacturing techniques for lightweight composite structures in the transport industry, with subsequent chapters in parts three to five discussing structural optimization and analysis, properties, and performance of lightweight composite structures, durability, damage tolerance and structural integrity. Final chapters present case studies on lightweight composite design for transport structures.

- Comprehensively covers materials selection, design solutions, manufacturing techniques, structural analysis, and performance of lightweight composite structures in the transport industry
- Includes commentary from leading industrial and academic experts in the field who present cutting-edge research on advanced lightweight materials for the transport industry
- Includes case studies on lightweight composite design for transport structures

The authors nowadays always try to improve their talent in writing, they also doing some exploration before they write with their book. One of them is this Lightweight Composite Structures in Transport: Design, Manufacturing, Analysis and Performance.

Joseph Cosgrove:

The reserve with title Lightweight Composite Structures in Transport: Design, Manufacturing, Analysis and Performance contains a lot of information that you can learn it. You can get a lot of help after read this book. This kind of book exist new knowledge the information that exist in this e-book represented the condition of the world today. That is important to yo7u to find out how the improvement of the world. That book will bring you with new era of the internationalization.
