There is nothing wrong with your vulva: A coloring book suitable for all ages, with parental discretion, depicting the entirely normal wide range of female genitalia. Laura Lemons

I created this book because I grew up ashamed of my body, especially my labia. I got no reassurance from my mother because she was raised to be ashamed of HER body. I got teased by guys if they slept with me and I decided to break up with them. I encountered so many other women who told me they felt the same shame and spent years hating themselves. My hope is to encourage more women to love their bodies as is and possibly even to get this book to young girls who need it. Some parents may not find it suitable for their young daughters but I honestly think they should reconsider because this book could help a young girl immeasurably and normalize her body parts, remove the mystery, remove the shame. This is more than just another coloring book, it is a tool that can be used to encourage self-love. (and it's a coloring book which is pretty cool!) *30 pages on single sided page for easier removal*
