Tracks in the Sand: Sea Turtles and Their Protectors (Ocean Marine Life) Frank Gromling, Mike Cavaliere

So much more than a book about sea turtles, Tracks in the Sand is the profile of a state's rich coastal heritage and a showcase of its characters. Detailed with photography mined from decades of volunteer work, and fascinating in-depth personal portraits, it combines science with a poetic sense of insight uncharacteristic of the nature genre. Don't call it a turtle book. This is a story about people, passion and purpose turtles just happen to be the bond to tie all of those things together. The Turtle Patrol is not just a funny name it's a tradition, a band of hundreds of Floridian volunteers who monitor their backyard beaches every summer in the name of sea turtle conservation and protection. These enthusiasts are passionate, eccentric and absolutely unique, a culture entirely unto themselves. This is their story, tinted green and gliding through the waves.
